

FAST, SECURE WEB & EMAIL HOSTING

RELIABLE & HEAVILY ENCRYPTED

DOUBLE THE SSL ENCRYPTION

Twice the SSL (Secure Socket Encryption Level) Protection of most providers: 4096 bit (compared to 2048 bit).

DEDICATED IP ADDRESS

Each site is also provisioned its own Dedicated IP (Internet Protocol Address) for increased security.

SOLID-STATE SERVERS

Our servers offer the fastest speed possible, saving you time and benefitting your SEO performance, with automatic backups nightly, so your site and email are always protected.

UNLIMITED EMAIL INBOXES

Unlimited number of Business Level email boxes, able to receive up to 100mg file attachments, (compare to Google and Microsoft 15mg file limit).

UNMATCHED CUSTOMER SERVICE

Your dedicated server manager monitors your site around the clock and provides you with a direct line so there is no waiting on hold.
