

LOCAL DIRECTORIES & MAPS SUBMISSION

SHOW UP IN MAPS & NAVIGATION SYSTEMS

MAKE IT EASY FOR CUSTOMERS TO FIND YOU

Digital Warlock can make sure your brick and mortar business is properly listed on online maps, such as Google or Apple Maps, plus Car Navigation systems.

We hand submit your business information to up to 50 of the major Local Business Directories and Mapping sites, with no shortcuts, and no software bots used. We also submit and confirm your information with the top 4 main data aggregators that provide information to car mapping systems and other navigation sources.

HIGH-VALUE INBOUND LINKS TO IMPROVE SEO

This process creates strong, verified links that benefit your SEO performance, and corrects any older listings, getting all of your information consistently represented properly so you can avoid search engine penalties for bad representation.

SET IT & FORGET IT

No hidden or recurring fees - this is a one-time fee and you only need to do this ONCE for the life of your business, unless you move or change your phone numbers.
