

LOGO DESIGN & LOGO REPAIR/REFRESH

STRENGTHEN YOUR BRAND IDENTITY

Your company's logo grabs attention, makes a strong first impression, is the foundation of your brand identity, is memorable, separates you from competition, and fosters brand loyalty!

LOGO CREATION

Based on an initial client interview, our design team creates 8 different logo concepts with different designer interpretations of your logo. You then get to mix and match elements, colors, fonts, in unlimited revisions, narrowing the process until a single approved logo is completed. Then **Digital Warlock** provides all of the common file formats - color, grayscale, vector, transparent, high resolution for print- so you have everything you need.

LOGO REPAIR / REFRESH

This service is intended for business clients who already have a logo - but may not have in all formats, not in scalable sizes, or in high resolution. Or maybe the logo has become a bit dated, and could use some modernization and cleanup. **Digital Warlock** redraws the single logo into vector format - and then provides all of the common file formats - color, grayscale, vector, transparent, high resolution for print.
