

Trusted IT Partners in Education

We provide turn-key network and cybersecurity solutions tailored for K-12 education.

Supporting 20+
School districts
for over 10 years

"Cloud59 has worked with our school district for over 15 years and has become the 'final word' for all our technology decisions because I trust them that implicitly."

— Director of IT Suzanne Couey, Wheeler County Schools

Safeguard Your School District: Advanced Pen Testing

We provide school districts with internal and external penetration testing, mimicking sophisticated cyberattacks to identify and remediate weaknesses in your network security.

Don't wait for a breach—be proactive.

Receive a complimentary, no-commitment pen test quote tailored for your district. As a thank you for your valuable time, we'll send you a \$10 Starbucks gift card.

Let us demonstrate the simplicity and affordability of robust cybersecurity.
