

# Recovery is Good for Business!

Las Vegas employers and small business owners are invited to join Councilwoman Victoria Seaman and other elected officials for a conversation about employee well-being and officially kick off National Recovery Month.

Las Vegas Councilwoman  
Victoria Seaman

## Why employers?

Network with other cause-inspired employers and learn how your business can be part of the solution to the growing mental health and addiction crisis.

Each year, addiction costs Nevada \$6.8 billion and the majority of these costs are incurred by businesses due to reduction in the labor force, decreased productivity, turnover, absenteeism, healthcare, and criminal justice. 1 in 3 American households are touched by addiction; these are our employees, customers, families, and friends. It's time we start talking to them.

## Register Online
